6 June 1973

1.

2. Items of interest from the DDO Staff Meeting - 6 June 1973

a. Confirmation Hearings. Mr. Colby noted that Senate hearings on Mr. Schlesinger's nomination to be Secretary of Defense have not been scheduled and he could not predict when they might be held. Until that action is taken, his own hearings cannot be scheduled.

b.  Mr. Colby introduced Paul as Special Assistant to the ADDO.  has replaced  as EA/DDO.

c. Scotching a Rumor. Mr. Colby said he wanted to scotch the rumor that "we will have 3 waves of personnel cuts and we've just gone through No. 1." DDO was first given a cut in its FY 1974 positions. DDO has now gone through an excess people exercise. DDO has recently gotten a further cut in its FY 74 positions.

3. Other Items of Interest.

a. Book Messages. The Office of Communications feels the new system is working nicely, but asked that we bring to your attention the following points of interest on book messages.

(1) Addressees cannot be tabulated - they must be listed as shown in  i. e. , separated with comma and space, and terminated with a period.

(2) Any number of addressees may be entered, but, for communications purposes, listing by area is preferable. This is to preclude more than one transmission to the same station for cryptoguard action.
